

Reading Schemes

Guided Reading Schemes

Our core scheme for early group and guided reading in EYFS and Key Stage 1 is Pearson Bug Club. We selected this as our main scheme as it links so successfully with our phonics learning. The books are fully decodable and they are high quality fiction and non-fiction texts which immediately capture the interest of the children. We supplement these books with a range of Oxford Reading Tree, Floppy Phonics and Rigby Star fiction and non-fiction.

Home Reading Scheme

Every child has a reading book that they take home to read independently or with parents. Our core scheme for home reading is Rising Stars Reading Planet. This scheme was selected as it successfully matches our phonics learning enabling children to embed essential early reading skills through highly and fully decodable books. This scheme has a clear progression within each book band beginning with the **Rocket Phonics** series that enable children to build firm foundations in reading with fresh and fully decodable books, to the **Comet Street Kids** series where children experience amazing adventures in the action-packed series, to finally, the **Galaxy** Series which include books that enrich the curriculum with captivating fiction and non-fiction text.

Once children are confident and independent readers, they select a range of high quality children's literature from our school library for home readers. They are also introduced to a wide variety of more challenging novels and non-fiction texts during guided reading through Cracking Comprehension.
